

## Monthly Metrics Key Findings:

- **Microsite Sessions (553 total):**
  - The microsite was primarily viewed on weekdays, with direct navigation being the primary source.
- **GitHub**
  - GitHub views for the Sandbox repository from January 1<sup>st</sup> to January 31<sup>st</sup> had a two large spikes. The first was on January 24<sup>th</sup>, with nine page views. The second occurred on January 31<sup>st</sup>, with a total of ten page views. Most other days had fewer than six page views.
  - GitHub views for the Microsite repository from January 1<sup>st</sup> to January 31<sup>st</sup> spiked on January 16<sup>th</sup>, with a total of eighty eight page views.
- **Data Sandbox**
  - The Sandbox Web Interface page views fluctuated throughout January. For the most part, the views increased towards the last third of January on weekdays, typically dropping to almost no views on weekends. The highest number of views was ten views on January 31<sup>st</sup>.
  - For most days in January, the number of downloads for the Sandbox Wyoming CV Pilot Data for BSM and TIM datasets stays below one hundred downloads per day. On January 19<sup>th</sup>, Wyoming BSM Downloads had a slight spike, with two hundred sixteen downloads. On January 31<sup>st</sup>, Wyoming BSM Downloads had a huge spike, with nineteen thousand four hundred eighty five downloads.
- **Data.transportation.gov**
  - **DTG Direct Dataset Views (2,004 total)**
    - NGSIM, Next Generation Simulation Vehicle Trajectories and Supporting Data, was the most viewed dataset at 45.5%, Safety Pilot Model Deployment Data was second at 6.8%.
  - **DTG Dataset Downloads (12 total)**
    - NGSIM, Next Generation Simulation Vehicle Trajectories and Supporting Data, was the only dataset downloaded, with twelve downloads.
- **DTG API (162 total API access. 240,326 total API downloads)**
  - The Enhanced Transit Safety Retrofit Package (E-TRP) dataset had the most API rows accessed at 34% of all DTG datasets with 55 access occurrences, and it had the most API Rows downloaded. It accounted for 99.7% of all DTG dataset API row downloads, with two hundred thirty nine thousand seven hundred thirty downloads.
- **National Transportation Library**
  - The dataset with the highest number of page views Incorporating travel time reliability into the Highway Capacity Manual, with sixteen page views. The dataset with the highest number of downloads was Analytical procedures for determining the impacts of reliability mitigation strategies, with thirteen downloads.

The below snapshot of the metrics was taken from the dashboard at the beginning of the month. Up-to-date metrics can be found on the [live site](#).

### Monthly Microsite Pageviews

### Monthly Sessions and Average Session Duration by Source

Source	Sessions	% Δ	Avg. Session Duration	% Δ
1. (direct)	207	10.7% ↑	00:04:26	17.0% ↑
2. google	184	46.0% ↑	00:03:12	-9.7% ↓
3. fdot.gov	77	67.4% ↑	00:01:11	47.4% ↑
4. transportation.gov	50	108.3% ↑	00:03:13	-1.4% ↓
5. github.com	6	-25.0% ↓	00:03:49	841.5% ↑
6. its-rde.net	5	-44.4% ↓	00:00:06	-4.2% ↓
Grand total	553	26.0% ↑	00:03:19	-1.8% ↓
